

GLOBAL ENTERPRISE OPERATIONS & ENGINEERING POLICY

Document Ref: **Doc_CORP_POLICY** | Version: 2.4 | Effective Date: October 2026 | Classification: Internal Enterprise

Section 1: Corporate Travel & Airfare Reimbursement Guidelines

All business travel must be booked through the centralized corporate travel platform at least 10 business days prior to departure. Domestic flights are strictly limited to Economy class. Flights with continuous flight duration exceeding 6 hours qualify for Premium Economy booking upon written pre-approval from the departmental Director. Post-travel reimbursement claims must include itemized GST/tax receipts and valid boarding passes submitted within 30 calendar days.

Section 2: Hotel Lodging Caps and City Per-Diem Rates

Nightly hotel lodging allowances are strictly capped based on city categorization: Tier-1 Metros (New York, San Francisco, London, Tokyo, Singapore) are capped at a maximum of 80 USD per night inclusive of taxes and breakfast. Tier-2 Innovation Hubs (Austin, Berlin, Bangalore, Toronto, Pune) are capped at 90 USD per night. Incidental room charges, including in-room minibar, pay-per-view media, and personal laundry for trips under 4 days, are strictly non-reimbursable.

Section 3: Hackathon Sponsorship, Prototyping Credits & AI Competitions

Engineering teams approved to compete in accredited external hackathons and challenges (such as Samsung PRISM, NVIDIA Nebius, or AWS AI Hackathons) are granted a dedicated project prototyping fund of up to 00 USD per team for cloud GPU computing, API tokens, and specialized sensor kits. Teams must register their project with the Engineering Excellence Council at least 7 calendar days prior to event commencement. Intellectual property produced during approved competitions remains open-source under Apache 2.0 unless pre-designated proprietary.

Section 4: Remote Work Equipment, Monitor Stipends & Asset Governance

Full-time remote and hybrid engineers are eligible for a one-time home office setup stipend of ,200 USD for ergonomic seating, desk risers, and up to two 4K external display monitors. An annual hardware refresh budget of 00 USD is available beginning after the employee completes their first year of service. All hardware purchased through corporate expense allocations remains company property and must be registered with IT Asset Tracking with serial numbers.

Section 5: Daily Meals, Client Hospitality and Dining Allowances

Employees on approved travel are provided a maximum daily meal per-diem of 5 USD (5 breakfast, 0 lunch, 0 dinner) on non-client dining days; alcohol purchases are strictly non-reimbursable on standard per-diem. Client business entertainment dinners require pre-approval and are capped at 20 USD per attendee including gratuity, with alcohol limited to a maximum of 2 standard beverages per attendee and requiring a complete guest list on the receipt.

Section 6: Late Claim Forfeiture, Emergency Operational Waivers & Audits

All expense reimbursement submissions must be finalized in the financial portal within 30 days of expense incurrence. Expense submissions filed between 31 and 60 days require Department Head exception sign-off. Any reimbursement requested beyond 60 calendar days is permanently forfeited without exception. Internal finance audits occur quarterly, and any falsified or duplicated receipt submissions result in immediate disciplinary review.

Notice: This document constitutes formal company policy. Queries regarding specific exceptions should be directed to Finance & HR Operations.
